

Travel & Expense Policy

Synthetic test document for FinOps AI Copilot - Policy Ref: T&E-2026-01;

Effective date: 1 January 2026

Purpose: This policy defines reimbursable business travel and expense limits for employees.

1. Accommodation

Hotel accommodation is reimbursable up to **GBP 150 per night**, including taxes and mandatory hotel charges. Any amount above GBP 150 per night requires prior written approval from the employee's line manager.

2. Meals

Reasonable meal costs incurred during approved business travel are reimbursable up to **GBP 40 per day**. The daily limit applies to the total of breakfast, lunch and dinner.

3. Ground Transport

Taxi and ride-hailing costs are reimbursable when used for legitimate business travel. **A receipt is required for taxi or ride-hailing claims.**

4. Alcohol

Alcohol is not reimbursable under this policy unless specifically approved as part of a client-hosting event in advance.

5. Receipt Requirements

Receipts are mandatory for any individual expense above GBP 25. If a receipt is unavailable, the claim must be escalated for manual Finance review and may be rejected.

6. Finance Review

Finance must check each claim against policy limits and supporting evidence. Claims with policy exceptions, missing evidence or unclear business purpose should not be automatically approved. The final decision remains with an authorised Finance reviewer.

Note: This is a fictional policy created solely for testing the FinOps AI Copilot MVP.
